We are halfway there, help us reach our goal of funding the WHS Greenhouse! With the recent approval of the 24x60ft greenhouse at Cherokee Washington High School, staff and students have been working hard seeking funds for this project to come to life. With this being said, the efforts have put us over half way to our goal of \$300,000. With your generous donation, we will be one step closer to our goal of making this notable Investment in our students of Washington High School.

We are ambitious to begin building *this coming summer* so that our students can begin this once in a lifetime experience in the 2022-2023 school year. Our students rely on the generosity of their community so that someday, the community can rely on the education and hard work of our students.
